SCALL HEAD CURED

Bad Case. Two Doctors No Good. Tries Cuticura. First Set Helps. Four Sets Completely Cure.

Our babe 'Pearl was born Nov. 22, 1891. From ber birth she had Scall Head until she was four months old, then it became worse and came out in small white pimples, end then spread to be large yellow scabs. We tried two doctors, but they could not dott any good. So we tried CUTICCERA REMEDIES, giving her a thorough washing three times a day with CUTICCERA. The first set we tried helped her, and before we used four sets she was perfectly cured. At the was perfectly cured. At the was perfectly cured. At the pounds. Her skim is fair and smooth, and scalp perfectly well. Portrait inclosed. I would not do without CUTICCERA REMEDIES, and can recommend them as most excellent for children.

THE CABINET TO ENFORCE THE CHINESE EXCLUSION ACT.

Wooden Vessels in Chinese Waters to be Replaced by the New Modern Steamships.

Senator Perkins Assigned the Vacancies on Committees Caused by Leland Stanford's Death, Also on Indian Affairs.

The Last Extremity of Closure is not to be Invoked by the Senate-Special Agent Womack Reports Everything in Readiness for the Grand Rush on the 16th-Application for Change of Enid Townsite Denied by Lamorsaux.

Notes.

WASHINGTON, Sept. 8.—At today's cabinet meeting it was decided to enforce the Chinese exclusion act, so far as the appropriation available will permit. In view of this action, it has been decided to strengthen the United States navai force in Chinese waters. The wooden vessels there will be replaced at once with the new modern steamships.

SENATE. WASHINGTON, Sept. 8 .- At the conclu sion of the morning business at 12:25, Mr. Vaorhees called up the repeal bill and Mr. Faulkner proceeded to address the senate in favor of it and bimetallism.

Mr. Faulkner declared his intention pringing in an amendment to the present bill providing for the coinage of 8,000,000 silver dollars per month until the aggregate circulation of silver of the country should reach \$500,000,000. He predicted a deficit of \$50,000,000 for the current fiscal year. The Sherman law, he declared, was wholly responsible for the present troubles. It had not tended to produce a scarcity of money, but, on the contrary had added to the volume of the currency, and in this respect, had been beneficial.

and in this respect, had been beneficial.

Mr. Fanikner was followed by Mr. Turpic of Indiana, who said he favored bimetallism. The issue which confronted congress was not whether silver should be further used as money, but whether its purchase should be continued.

Mr. Jones of Arkansas followed in a strong speech, opposing the rep il bill as it now stands, and stating that in order to redeem party pledges the whole Sherman law should be repealed.

It was now 3:30 o'clock, and Mr. Voorhees rose and said he would not ask an unreasonable session, but he thought the hour was an unreasonable session, but he thought the hour was an unreasonable session, but he thought to desired to speak he would have to ask for a vote.

Since 1891 it had paid \$38,000 in duties on steel, which Mr. Gilbert thought was an unnecessary hardship.

J. A. Stevens, representing the Ludlow Manufacturing company of Massachusetts followed, with a plea for the retention of the duty on jute bagging and binding twine from henny and jute.

Hon. Hollamy Sterer, a Republic in representative from Cincinnati, presented a memorial from a large number of brewers in his district in favor of a reduction of the duty on hops. He contended that this was an instance where protection did not protect.

Hugn F. Fox, a big dealer in hops, also favored a decrease in the duty, saying that he thought 8 cents was ample to protect American growers.

William Wilkins, a Baltimore manufacturer of curled hair and bristles, made a plea for the retention of the duties on those articles, and Louis Marfield, a Baltimore representative of the cigarmakers of

those articles, and Louis Merheld, a Balti-more representative of the cigarmakers of that city, asked for a reduction of the duty of \$2.75 and \$2 a pound on Sumatra tobac-co to a duty of \$5 cents. He claimed this duty was levied for the benefit of the New England tobacce growers, and amounted to fully 500 per cent.

APPLICATION DENIED.

WASHINGTON, Sept. 8.—Land Commissioner Lamoreaux received a telegram today from Special Agent Womack, stating that arrangements for the Cherokee strip were progressing favorably and everything would be in readiness for the opening on the 16th inst. Application for a change of the townsite of Enid, in the Cherokee strip, has been flied at the interior department by officials of the Rock Island railroad. The officials claim that owing to the heavy grades the ground now selected is unsuitable for railroad construction. The department has declined to make the change.

Commissioner Lochren has appointed the following examining surgeons for the pension bureau today: L. C. Chenowith, I. T. Berry and John R. Freed, at Carthage, Mo.

WASHINGTON NOTES.

WASHINGTON, Sept. 8.—There is a grow-ing disposition in the senate to oppose presidential nominations of outside parties to offices in the territories. The Repub to offices in the territories. The Republicans have naturally taken a decided stand upon this, and there are understood to be some Democrats who agree with them. When the committee on Indian affairs met yesterday the committee did not decide to make a favorable report on any appointments of this character. This does not necessarily mean that the nominations will be rejected finally, but they are tied up for the present, and when they are reported they are likely to also encounter opposition in the senate. counter opposition in the senate.

ing and times were not so hard. The house had passed the bill and it is known the senate will pass it.

Mr. Teller, Republican, of Colorado announced that he would address the senate tomorrow as long as he thought the body would care to sit.

When the resolution of Mr. Wolcott, calling for information as to the amount paid in bounties on maple sugar was laid before the senate, that senator said he regreted the bruskness which he had shown toward Mr. Gallinger yesterday, in declinal gasgation of he latter to enlarge all sugars.

After Mr. Proctor of Vermont had twitted Mr. Wolcott in a humorous speech the resolution was agreed to.

An executive session was then moved, and soon afterward the senate adjourned.

CLOSURE NOT TO BE INVOKED.

Washington, Sept. S.—The last extremity of closure is not to be invoked by the American senate. DUN'S REVIEW.

NEW YORK, Sept. 8—R. G. Dun & Co.'s Weekly Review of Trade says: "Improvements have extended from the banks to the mills. The conditions of the great industries have distinctly mended, though still seriously depressed. More important by far than any rise in stocks is the fact that more works have resumed during the present week than have stopped operation, so that the producing force of operation, so that the producing force of the country, after months of constant decline, has begun to increase. The money markets show a more healthy premium on currency. Embarrassments in domestic exchanges have well night disappeared, and, while very little money is yet available for commercial or industrial leaus, there is some relief in that respect also.

"Soft steel reached the lowest point on record—\$30 at Pittaburg—and subsequently all rail mills in the country are idle, but the demand for hardware, wire rods, barbed wire and contracts for agricultural implement supplies reported at Chicago. The sales last week are the lowest on record for years—1,271,000 pounds at the principal markets for iast week, against 7,616,500 for same week last year, the average of 104 grades being If cents, the lowest for many years, and in manufacture it can hardly be said any recovery appears.

"In cotton mills the resumption of "In cotton mills the resumption of work is quite general. The prospects for corn are not improved, and the injury done by drought seems to insure a mucu smaller yield than was expected. The price during the week advanced fully 15 cents. Cotton advanced 8 cents.

"Exchanges through the principal clearing houses, outside of the city of New York, continue to show a large decrease in comparison with last year. Although several sanks which were forced to stop in July and August have resumed this week, the numerous failures of the past two mouths have thrown into confusion the calculations of merchants and compelled them to curtail operations. The moustary situation has changed but little. There has been an abundance of money and only confidence in employing it is lacking. The failures for the week have been only 233 in number, against 385 last week. While one large mortgage company swelled the aggregate of liabilities for the week, the average of failures was lower than usual."

Siam. So far as the rioting is concerned, there is no doubt that there has been very serious trouble, and still more is anticipated. A dispatch from Nottingham describes a conflict that took place between the police and military and the rioters were dispersed. In view of the serious aspect of affairs in the riotous districts, detachments of troops have been hastly dispatched to Midlands. Additional forces are held in readiness to proceed to the disturbed districts at a moment's notice.

Near Pontefract last night, a colliery was burned to the ground by the strikers, doing immense damage. Rioting there is of the most serious description. Three thousand rioters, armed with huge clubs, attacked the place. The magistrate, backed up by twenty-five armed solders, read the riot act, but the rioters only yelled and booted the more. It developed that the world's fair rates were being scalped at Carlo, St. Louis, Haunthal and Kansas City by manipulation of through tickets of the Texas roads issued from points in that state to Chicago. Though the Texas roads had been notified of the irregularity, and had promised to remedy the wrong, but the demoralization had been allowed to go on uninterruptedly.
